Momentum is building

KAP says more supports needed to recycle farm plastic waste

Resolutions at recent meeting ask for inclusion of plastic bag rollers as a BMP and for more collection sites *The Manitoba Cooperator – April 2018*

Farm groups would rather recycle plastic than see it 'go up in flames' *Global News – March 2018*

Waste agricultural plastic, including grain bags, is attracting the evil eye of media outlets and the public.

It's easy to criticize massive piles of useless, used plastic.

The Western Producer – June 2018
